

Young girl wins drawing contest

By Michael Rupp and Leonie Hansen, RSA, Germany

On 11th July, 2019 a girl from the RS Augustdorf, named Giselle Malke, won a drawing contest for the cover of the new school planner.

Our SV-Team decided to do a drawing contest for the new school planner cover, because the old one became boring. So some students of the RSA, less than expected, had the chance to create their own cover, which some students used to prove themselves. They had to finish their work until 27th May.

A girl from the 7b, Giselle Malke, won the contest. She can't remember how she came up with the idea of her cover.

"I just thought of it."

Giselle said. "My teacher said I should join the contest."

Finally, the students now have a good-looking school planner.
